GIRLS WON AGAIN

The boys and girls of the High school had another game of baseball yesterday and the girls' team beat the boys' to the tune of 29 to 19.

All through the game there was great excitement and the boys took their defeat at the hands of their sisters very much to heart.

The teams were composed of the following:

BOYS.	GIRLS.
D. Showard, Catcher.	Ting Kwai, Pitcher.
Ginger, Willie Chiffingworth, First Base.	Hilda Smith, Second Base.
A. Smythle, Hilda Smith, Third Base.	Helen Gay, Shortstop.
P. Kellett, Gertie McCriston, Right Field.	Ethel Whiting, Center Field.
A. Dunn, Ella Stone, Left Field.	W. Carden, Freda Gay.

Rogers, the mate of the Louisiana who was arrested yesterday on the charge of assault and battery on McNamara, a former sailor, appeared in the Police Court this forenoon. He made the surprising statement that he would plead guilty to the battery but not to the assault. Judge Wilcox dealt him the bottom of things and found that what the defendant wished to say was that he had given the complaining witness a beating but that he had had provocation for so doing. The case was set over until later on account of the large number of cases on the calendar. At the noon recess some it had not been reached and will in all probability come up for trial this afternoon.

Hoodlums and other kindred spirits are beginning to see what they can do with the fire alarm and police boxes recently installed in the streets of Honolulu. Today a sailor from one of the vessels in port was caught turning the handle of the fire box at the corner of Nuuanu and King streets. He evidently did not know that a bell is in the habit of ringing whenever anyone turns the handle. The sound of the bell attracted the police officer who was doing duty in the vicinity and he saw the fellow with his hand on the handle.

The sailor was arrested. At the police station it was seen that he was slightly under the influence of liquor and after Captain Kane had lectured him severely for what he had done, he was allowed to go. On his way out into the street he tried to apologize to every officer he met in the hallway.

A couple of cases of the same nature were reported by the police yesterday.

Naalehu, Kau, April 11.—Convictions in the two Kau murder cases is good news, and it is hoped will put a stop to the easy killing of men that has prevailed here. It is certain that without Doyle and Kaapa no convictions would have been made.

KONA IS NOW GRINDING

The news brought by the Manna Loa this morning with reference to the situation at the Kona sugar Company has raised all the stockholders of the city to the seventh heaven of delight for the path leading out of the woods seems to be fairly in view.

A letter from Mr. Scott, recently appointed receiver, states that the mill began grinding last Saturday and that the daily output at about noon tons of the rough sugar and molasses both are cutting their cane and having it transported to the mill for processing. The Japanese have come out of their disagreement mood and are working along with the rest toward the end of pulling the plantation out of the woods.

Mr. Scott states that the state of affairs with regard to the Japanese was all brought about by Consul Saito and that to him is due the credit for the whole desirable situation as it now stands. Had it not been for the visit of the peace-making Consul to the plantation, the same state of affairs that existed there a month ago would remain unchanged, no pointed out the only way by which the Japanese could ever get back what they had lost and the men saw the reason of it and went ahead as he had suggested.

It is further stated in the letter that the men in charge of the plantation are now laying their plans for the planting of the 1903 crop, and also that the work of installing the triple effect that has been at the plantation for some length of time, has already begun.

A number of the stockholders in the plantation were seen today and they all tell the same story about the starting of the trouble at the plantation. They say that it was entirely due to some attorneys who expected to get large fees by fomenting trouble.

These same stockholders are of the opinion that the visit of Cecil Brown to the plantation is fraught with more significance than would appear on the surface. To them the move indicates that there has been an understanding between Messrs. Samuel M. Damon and Cecil Brown and that the two banks which they represent will act in conjunction in any plan looking toward the placing of the plantation on a sound financial basis once more.

However, nothing that would suggest such a thing has been given out by either Mr. Damon or Mr. Brown.

A sample of the sugar now being produced at the plantation may be seen at the Melnyer shoe store, Fort street, near King.

TAILORED SKIRTS FOR WOMEN

Three seasons ago we began to believe that we could please women, by procuring for them ready-made summer skirts, which would have all the chicness, all the style, all the fit and all the quality, of skirts which were made by expensive dressmakers, and the making of which cost almost as much as the making of cloth or silk dress skirts.

That we were right is proven by the way our skirt business has grown. Every season, more women have bought our skirts.

What's the result? Just this. With every season we make increased efforts to provide choicer styles and an ampler stock and in buying largely we buy well. Quantity is a great factor in the reducing of prices.

The skirts which we show this week are of a higher grade than any we have ever before offered. They were gathered from the salerooms of New York's foremost makers—only a few from each—hence while the styles are all sure to be right beyond a doubt, they are all different, and you are sure of not meeting other skirts just like yours on every corner. These hints of them:

WHITE PIQUE	with 4 rows French insertion, 8 inches apart and 3-inch tucks in spaces	\$6.00
WHITE PIQUE	wide flounce and 8 rows of Hamburg bands	\$6.00
WHITE PIQUE	very wide insertion, running in V effects	\$4.50
WHITE PIQUE	French embroidered bands in Grecian patterns	\$4.50

At the Dinner Table A Diluter for Wine

STILL wines are made sparkling when mixed with " " " " white rock water. They are, in this way, given a zest and life, unequalled except by the best champagne. The diner out or the gentleman who must entertain much at his club, will do well to note that the table will be supplied with this water. It is given a prominent place on the wine list of the most exclusive clubs in America, and has been honored by Presidential approval when served at the Inaugural Ball Banquet in Washington. The palate of epicures is gratified to the utmost by WHITE ROCK WATER.
